

Feedback Form

Name:XXXXXXXXXX

Date:26th November

Publication you are giving feedback on: Database

Overall do you think this is a good publication? It's Ok

Are there any parts you especially like?

Data entry form is good. Took a while to receive results from you.

Are there any parts you especially dislike?

Nothing especially – would have been good if you could have produced a report directly from the database.

Do you think it has been created quickly enough?

I checked your plan and you spent far too long on this. I would move onto the information point.

Please list any changes or improvements you would consider making?

Probably but databases are boring. Move onto the information point.
